

iLitterless

A New Era of Waste Management: Accessible, Rewarding and Sustainable with #WeLitterless

StudentsxCEOs Global Summit Business Case Competition

Prepared by NFP

Muhammad Faiz
Alfikrona

Nathaniel
Jonathan Rusli

Peter
Wongsoredjo

Problem

There are education and awareness gaps on waste management

Awareness of iLitterless brand and PML service are limited

The PML service model is perceived as a premium service and double burden

How can **iLitterless** bridge waste management education gaps, boost brand and service visibility, and improve PML's practicality and incentives to enhance PML service utilization, while ensuring scalability and resource efficiency?

Solution

Impact

Indonesia is facing a critical waste crisis, particularly within the F&B sector

Where the need for sustainable practices has become more urgent than ever to address escalating environmental issues

Indonesia's waste production is escalating rapidly, with **food waste accounting for a significant 40.6%**, highlighting an urgent need for effective and sustainable waste management solution

Indonesia's Waste Behavior

Indonesia's Waste Production Projection by 2025

Indonesia's waste crisis reveals a large **market opportunity** for waste management, particularly in the **F&B sector**

Indonesia's Waste Management Industry

Indonesia produces nearly **100,000 ton of MSW** everyday (55%)

Indonesia Waste Management Market Value

iLitterless, a Malang-based NGO, is here to **address waste management issues** through community education and innovative collection programs & services, particularly in the **F&B sector**

iLitterless' Program, Service, & Product

Program	Product & Service
#pilahsampahitumudah campaign	Pick-up My Litter (PML) 
maRRRchFest & Green Consumer Day	Mini On-boarding of iLitterless Recycling Station (MOBI-RS)
iCos Initiative	Recycled Products

Unfortunately, **Pick-up My Litter (PML)**, a waste collection service aimed at individuals and MSMEs by iLitterless, is facing **noticeable decline in service**

What are the **key challenges** behind the **decline in PML usage** and what **strategies** can boost its adoption to ensure iLitterless's operational sustainability?

Customer segmentations and a look through customer's point of view

Allows us to identify key customer needs and pain points to establish solid customer base for the PML service

Pain Points Across Customer Journey

Awareness

Limited public awareness about the **importance of waste separation**

Consideration

Perception that **waste sorting requires too much effort** or is inconvenient

Purchase

Limited customer base expansion due to **lack of strong incentives**

Post-Purchase

Lack of visible, immediate impacts for users' waste management efforts

Advocacy

Difficulty cultivating a strong sense of brand attachment, especially with younger audiences

Customer Needs & Segmentation

Young Urban Customers

Active On

Meet Lina, as an environmentally conscious Gen Z individual, she needs waste sorting and recycling options that are:

1. **convenient**,
2. **budget-friendly**, and
3. **genuinely sustainable**, not greenwashed

HOREKA Business Sector

Reach Customers Through

Meet Layla, as a small café owner who values sustainability, she needs a waste management service that is:

1. **affordable**,
2. **easy to integrate** into daily operations, and
3. supportive of her **eco-friendly commitments**

Key Takeaway

Our customers want solutions that are **affordable**, **convenient**, and **genuinely sustainable** waste management practices.

There are also key points in terms of the marketing of PML service and customer behavior

To ensure the best brand strategies, ways to educate customers, and factors influencing volunteering

Factors Influencing Volunteering

Inhibiting Factors

- Impractical process
- Time-consuming efforts
- Lack of adequate facilities

Motivating Factors

- Tangible environmental impact
- Engaging and enjoyable activity
- Flexible time commitments

Increasingly significant

Behavioral Insights

Preferred Activities

Community clean-ups and on-site waste sorting during events

Most Effective Awareness Method

Social media and offline campaign with educational initiatives

Details in [Appendix 1](#)

iLitterless excels in sustainability but faces challenges in **volunteer retention, awareness, infrastructure, and price perception as a premium** with opportunities in **branding and digital engagement**

Volunteering thrives on **impact and enjoyment** but needs **practical solutions, community events, and social media** drive engagement

Through iLitterless competitor analysis and brand presence insights

We can identify and industry benchmark determine external factors present in iLitterless and the PML service

iLitterless' Competitor Analysis

Service Offerings	Simple, incentive-based waste buying	Tailored services for F&B sector	Plastic waste recycling through a digital platform	App-based pick-up for households and businesses
Incentives for Engagement	Direct financial rewards	No direct financial incentives	Financial rewards and partner discounts	User-friendly platform and eco-focus
Target Market and Community	Broad reach (general public and small business)	Strong niche focus on F&B sector	Targets a broad audience, eco-conscious focus	Urban households and businesses
Scalability and Efficiency	Easily scalable due to simple model	Resource-intensive, harder to scale rapidly	Scales efficiently using digital tools and partnerships	Scales efficiently with tech and partnerships

Brand Presence Analysis

Instagram Followers

Mobile-App Users

Achievements & Awards

iLitterless **struggles to compete** with broader-reaching competitors who excel through **financial incentives** and **scalable digital platforms**, while its **low brand presence** further limit its engagement and accessibility.

To revitalize the PML service, iLitterless must tackle the following identified problems

As concluded by previous thorough analyses and key insights

Objective

Enhance PML service utilization by overcoming problems hindering the PML service, establishing a compelling brand image for Gen Z and millennials, attracting youth participation in waste management, and implementing resource-efficient solutions

Problems

1
There are education and awareness gaps on waste management

2
Awareness of iLitterless brand and PML service are limited

3
The PML service model is perceived as a premium service and double burden

Root Causes

Limited access to practical and engaging waste management

Low prioritization of waste management in daily life due to lack of perceived impact

Insufficient scalable, community-driven educational initiatives

Minimal presence on popular digital platforms

Weak storytelling and inconsistent promotion of iLitterless' impact and services

Limited reach beyond local communities

The PML service lacks incentive and reward

High service cost compared to competitors

Lack of facilities or tools to support waste separation efforts

Problem Statement

How can iLitterless bridge waste management education gaps, boost brand and service visibility, and improve PML's practicality and incentives to enhance PML service utilization, while ensuring scalability and resource efficiency?

#WeLitterless campaign

iLitterless strategy to create a new era of waste management: inspiring awareness, building engagement, and driving action

#WeLitterless Campaign

Trigger Stage

#WasteSmarter

Awareness

Education

Brand Presence

Scope

Educational and Viral Campaign

Objective

Build awareness, educate the public, and establish iLitterless as a **leading waste management brand**

Key Message

Through #WasteSmarter, **iLitterless simplifies waste education and inspires action** with engaging, viral content, making waste sorting the next big movement for a cleaner future

Problem Addressed

- ① There are education and awareness gaps on waste management
- ② Awareness of iLitterless brand and PML service are limited

Engagement Stage

#WasteWarriors

Volunteering

Community

Engagement

Scope

Community Building

Objective

Foster a sense of community and **provide meaningful opportunities for engagement and volunteering** in waste management

Key Message

Join the #WasteWarriors community to **become a champion for change—volunteer, connect, and lead the movement** toward sustainable waste management

Problem Addressed

- ① There are education and awareness gaps on waste management
- ② Awareness of iLitterless brand and PML service are limited

Amplification Stage

#Waste2Cash

Incentive

Scalability

Scope

Incentive Programs

Objective

Incentivize participation in waste sorting and **expand scalability** through partnerships and reward-driven programs

Key Message

#Waste2Cash **turns your efforts into rewards, making waste sorting not only good for the planet but beneficial for you**, powered by partnerships for greater impact

Problem Addressed

- ② Awareness of iLitterless brand and PML service are limited
- ③ The PML service model is perceived as a premium service and double burden

Trigger: #WasteSmarter

Activating masses through campaigns and challenges to bridge waste management education gaps and boost iLitterless' brand presence.

75%

Gen Z and Millennials believe **social media campaigns** are the **most effective method** for **raising sustainability awareness**.

5X

More likely to click on a **short video** as a form of **sustainable content**

Competitive and Cause Driven

40%

Would participate in an **offline gamified** waste management **challenge** to raise awareness

Online Viral Emotional – Comedy Campaign

#ThinkBeforeYouWaste Advertisement

A video that showcases **the life of a bottle** that is **not sorted properly** and travel through places it's not supposed to, a comedic take on a serious problem, **raising awareness** of the topic.

Objective

Create Brand Story

Deliver Brand Value

Raise Awareness

Reach New Customers

#ThinkBeforeYouWaste Video Concept

Online Educational (UGC) Campaign

The **#WasteSmarter** UGC campaign is an educational initiative that leverages **youth creators** and **user-generated content (UGC)** to drive organic growth in awareness and engagement

Content Production (UGC)

Invites youth to **compete** by producing **content focused on waste management & sorting**

Youth Ambassador Program

Winners of the competition will **receive rewards** and opportunity to join as **#WasteSmarter Ambassador**

#WasteSmarter Campaign Example

Offline Viral Waste Sorting Campaign

An offline campaign that provokes two opposing sides to **compete in waste sorting**, **engaging a wide audience** of young generation and **educating** them through real life experience.

Implementation Details

Production of see through **MOBI-RS** for both sides

Distribution to partner cafe's and district malls

Unique experience are then **shared through social media**

Intrigued participants gets to **try it for themselves**

Impact

Achieve **100.000+** social media impressions and **10.000+** interactions

15% increase in **social media posts** about waste sorting using **#WasteSmarter**

Increase in **PML service usage** by **30%** within two months

Recycle **5+ tons** of waste through increased offline campaign annually

Engage: #WasteWarriors

Creating a self-organizing and self-sustaining waste management community that is scalable

Almost
40%

Of Gen Z & Millennials

Needs some form of **evidence** or **proof of impactful sustainability practices**

8/17

of SDGs are achieved directly through **environmental volunteers**

iLitterless are facing some **financial** and **physical office constraints**

Solution

Environmental Volunteering
Environmental volunteering promotes sustainable waste management through community action, education, and advocacy for lasting impact.

Implementation Details

Community Building: Waste-Warriors

A collaborative platform of **eco-conscious individuals** united to promote sustainable waste management through education, engagement, and impactful actions.

Value Proposition

- Empower individuals with sustainable tools & knowledge
- Foster collective impact through loyal base of advocates
- Build lasting connections for long term behavioural change

Key Activities

- Education:** workshops, webinars, DIY recycling stations
- Engagement:** community clean-ups, campaigns, social media challenges
- Empowerment:** Internship opportunities and reward programs for active participation

Community Member Benefits

- Sense of **belonging** and shared **purpose**
- Gain **recognition** through leadership roles and participation incentives
- Empowered advocacy** with fun and enjoyment

Impact

Volunteer growth:
500+ members annually
Engagement: 10.000+ people reached annually

Brand Credibility:
receive credit through initiatives
Sustainability: Collected and recycled 15 ton of wastes annually

Personalized Volunteering Experience

Volunteers take a quiz to find out which recyclable material matches their personality and then set to work in their own respective group of **people with matching personalities**

Personalized volunteering experience gives values through:

- Attracts people by offering **personalized identities** they can resonate with
- Boosts **productivity**, grouping like-minded individuals who work well together
- Fosters **innovation** through collaboration across diverse strengths and perspectives

Potential Community Collaborator

Greeneration's Eco Ranger Community

aligned waste management objective & activities

Waste-Pioneers Benefits

- Access to large audience
- Faster onboarding
- Increased visibility

Eco Ranger Benefits

- Enhanced reputation
- Co-branding opportunities
- Access to iLitterless' expert

Collaboration Strategy

- Joint events & campaigns
- Collaborative sponsorship outreach
- Data and impact sharing
- Cross-promotion

Eco Archetypes

Paper Reducer

Adaptable, thoughtful, and versatile

Plastic Recycler

Flexible, durable, and innovative

Glass Recycler

Transparent, strong, and reflective

Details in **Appendix 3**

Amplify: #Waste2Cash

Integrates corporate sponsorship, decentralized hubs, and incentive programs to create a scalable, cost efficient waste management system model

Prioritizing practicality through accessibility and service rewards is essential to ensure the sustainability and scalability of waste management service

Solution

Decentralized Hubs
Establish local collection points to make waste sorting and pick-up more accessible

Fee Reduction
Make PML service more affordable and attractive, increasing usage

Digital Point
Introduce rewards to increase user motivation and engagement

Implementation Details

Decentralized Hubs

The decentralized hubs solution leverages **localized waste drop-off points** and **existing MOBI-RS** to **improve accessibility** while also reducing logistical costs

Why MOBI-RS?

1. Cost-effective (own produced)
2. Promotes awareness, education, & branding
3. Accessible, adaptable, & scalable

Partnerships & Hubs Location

Local Businesses: cafes, market, retail outlet

Educational Institutions: schools and universities

Community Spaces: parks, community centers

PML Service Customer Fee Reduction

Reducing PML fees is crucial to making the service **more affordable and attractive**, **addressing cost barriers and encouraging broader community adoption**

Potential Funding Sources to Offset Courier Fee

Government Grants

Further Corporate Funding

Carbon Credit Sales

Digital Point Reward System

The **digital points reward system** **incentivizes users to participate** in waste sorting and the PML service by **offering redeemable points** for their contributions

Strategic Partnership

Cooperate with existing partners for **co-sponsor rewards**

Cafe food & beverages

Eco-brand products

Discounts & vouchers

Partner benefits

Sales ↑
Recognition ↑
ESG/CSR ↑

Web Expansion to Support Digital Point System

Details in **Appendix 4**

Impact

Decentralized Hubs

Serve up to **100** users monthly in a single hub

PML Fee Reduction

Increase repeat service users up to **50%**

Digital Point Reward

Improve user retention rates by **20-30%**

Overall Impact

Increase service usage by **30-50%** in 6 months

Timeline & Key Performance Indicator (KPI) for #WeLitterless milestone

Implementation

Dec Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec Jan Feb Mar Apr May

#WasteSmarter: Launch the #ThinkBeforeYouWaste campaign to build awareness through social media and offline challenges.

#WasteSmarter: Engage communities through offline waste sorting challenges and promote content creation.

#WasteSmarter: Run the offline viral waste sorting campaign.

#WasteSmarter: Select #WasteSmarter Ambassadors. Empower ambassadors to lead campaigns and expand community outreach

#WasteSmarter: Continue promoting good waste management habits through ambassador initiatives. Shift focus to sustaining long-term waste management habits and community engagement.

#WasteWarriors: Recruit volunteers and introduce the waste education program through workshops.

#WasteWarriors: Expand the program to new zones by hosting workshops and cleanup events.

#WasteWarriors: Increase the program's reach by targeting new zones and strengthening volunteer networks.

#WasteWarriors: Continue evaluating the program and ensuring high community engagement. Strengthen the volunteer base while maintaining high satisfaction rates.

#Waste2Cash: Build initial partnerships (government and corporate) to pilot decentralized hubs and establish foundational revenue streams.

#Waste2Cash: Partner with high-density locations (universities, malls) and use the surplus revenue to create decentralized hub there and subsidize PML.

#Waste2Cash: Deploy more hubs and scale the rewards system to enhance user engagement.

#Waste2Cash: Foster new partnerships and expand services for long-term operational sustainability.

Phase 1

Phase 2

Phase 3

Phase 4

KPIs

#WasteWarriors: Increase PML users by 15%, 50,000 campaign impressions, 5,000 interactions, 500 UGC posts.

#WasteWarriors: Recruit 200 volunteers, host 3 workshops (150 participants).

#Waste2Cash: Secure 2 partnerships, build 3 hubs, generate IDR 20M revenue.

#WasteWarriors: 1,000 campaign participants, 2,000 UGC posts.

#WasteWarriors: 5 workshops (250 participants), 10 cleanups (500 volunteers), expand to 3 zones.

#Waste2Cash: Add 5 recycling stations, increase PML users by another 15%, revenue to IDR 30M.

#WasteWarriors: 5 ambassador campaigns (2,500 participants), 150,000 impressions.

#WasteWarriors: 300 volunteers, expand to 5 zones.

#Waste2Cash: Add 10 hubs, grow PML users to 1,500, revenue to IDR 50M.

#WasteWarriors: Maintain 7,500 participants, 15% behavior retention.

#WasteWarriors: Recruit 500 volunteers.

#Waste2Cash: Add 10 hubs, PML users to 1,800, revenue to IDR 75M.

#WeLitterless financial projection suggests feasibility of the whole recommendations

Indicated by low initial investment and strong performance metrics, ensuring operational sustainability and scalable growth potential

Cash Flow Projection

Projection Assumptions

Risk-Free Rate (RFF)	7.0%	Corporate Bond Rates	9.00%
Equity Market Risk Premium	7.0%	Corporate Tax Rate	22.00%
Interest Rate (BI Rate)	6%	WACC	12.90%
Expected Industry CAGR	9.80%		

Details in [Appendix 5](#)

Initial Investment

Rp 85.000.000

NPV
Rp 423 M

IRR 33%

Payback Period
3.74 Q

ROI
498.77%

NPM
52.23%

The financial projection highlights **low initial investment aligned with iLitterless' financial constraints**, while still achieving positive revenue growth and scalability

#WeLitterless risk mitigation are planned to ensure optimal results

Potential risks have been identified, and mitigation strategies have been developed to make sure the solutions runs smoothly

Risk	Mitigation
1 Insufficient User Engagement in Online Campaigns	Partner with influencers, schools, and media to expand reach, and use A/B testing to refine content
2 Lack of Participation in Offline Gamified Campaign	Offer attractive rewards such as café discounts or eco-friendly products
3 Technical Issues with Digital Reward Systems	Set up a dedicated support team to address technical issues promptly, and provide clear user tutorials and FAQs
4 Low Volunteer Retention in Waste Management Community	Provide tangible impact reports to motivate participants, Offer frequent incentives to maintain interest
5 Partnership Issues with Sponsors	Draft detailed agreements outlining expectations, deliverables, and KPIs

Conclusion: #WeLitterless strategy and impacts

Main Objective

Enhance PML service utilization by overcoming problems hindering the PML service, establishing a compelling brand image for Gen Z and millennials, attracting youth participation in waste management, and implementing resource-efficient solutions

#WeLitterless Strategy

Trigger: #WasteSmarter

A campaign leveraging viral content and education to boost awareness, engagement, and brand visibility for waste management

Engagement: #WasteWarriors

A community-driven initiative offering personalized volunteering experiences to foster participation and long-term engagement

Amplification: #Waste2Cash

A program combining decentralized waste hubs, incentives, and partnerships to enhance practicality, affordability, and scalability of waste management services

Outcome

Sustainable Impact

Divert **50+ tons** of waste from landfills annually

Social Impact

Engage **500+ individuals** through volunteering and educate **100.000+** individuals

Financial Impact

Reach **NPV of Rp423M** with **IRR of 33%** and **payback period of 3.74 quarters**

Appendix

Appendix 1. Survey-Based Analysis

Data Usia: Gen Z vs Milenial

Tingkat Kepedulian Gen Z dan Millennial Terhadap Lingkungan

Tindakan Pengelolaan Sampah yang Saat Ini dilakukan Generasi Muda

Faktor Yang Memotivasi Generasi Muda untuk Melakukan Kegiatan Relawan Yang Berkaitan dengan Waste Management

Metode Paling Efektif untuk Meningkatkan Kesadaran dan Mendorong Aksi Keberlanjutan

Hal-Hal Yang Menghambat untuk Melakukan Lebih Upaya Waste Management atau Sorting

Appendix 1. Survey-Based Analysis

Ketersediaan untuk Membayar Layanan Angkutan Sampah Seperti Pick-Up My Litter (PML)

Tingkat Kemungkinan untuk Mencoba Layanan Angkutan Sampah (5 Paling Mungkin)

Pendapat Gen Z dan Millenial Terhadap Apakah Sebuah Gerakan Perubahan atau Komunitas Akan Membuat Brand Sustainability Lebih Menarik

Jenis Konten Yang Paling Menarik untuk Edukasi Waste Sorting and Management

Menurut Anda, sebaiknya seperti apakah sebuah merek/brand sustainability?

Appendix 2. Revenue Model and SWOT-TOWS Analysis

iLitterless' PML Revenue Model

Waste Sales (Recycle)

500 - 700 kg of wastes generated every week

Wastes are transformed through BSIL, and are sold to local companies

Unable to sell wastes due to **insufficient volume**

Wastes gathered only generate around IDR 3,000 per kgs.

Collection

Lack of funding from company sponsorships

Possible high operational cost burden

Insufficient Revenue Model

PML charges IDR 15,000 per collection for individual customers

Low adoption due to perceived high cost and the "double burden" of waste sorting

Limited user base and low recurring revenue

iLitterless' PML revenue model suffers from **burdensome logistics** and **inability to monetize waste sales** leading to **high collection fees**

SWOT/TOWS Analysis

Internal

Strength

Unique market position
Youth-engaged brand
Mission-driven organization

Weakness

Perception of premium service cost
Resources limitations
Limited practicality in waste sorting
Low initial awareness

External

Opportunity

High interest in social media campaigns
Willingness to pay for affordable, practical solutions
Community-driven initiatives

Develop engaging, **digital-first educational content**
Expand social media and digital presence to amplify brand communication

Develop an **incentive-based awareness model**
Scale through **decentralized operations**

Threat

Competition from emerging sustainability programs
Behavioural barriers
Economic sensitivity
Skepticism about impact

Increase **service accessibility** to counter competitors
Strengthen credibility through **impact reporting**
Differentiate with **community-driven program**

Build long-term habits through **education**
Reevaluate PML pricing and service model

iLitterless can strengthen impact and sustainability through **digital-first education and awareness, affordable and accessible service models, and transparent impact-driven and community-driven engagement**

Appendix 3. Personalized Volunteering – Eco Archetype

Archetype

Paper Reducer

Adaptable, thoughtful, and versatile

Plastic Recycler

Flexible, durable, and innovative

Glass Recycler

Transparent, strong, and reflective

Carton Reclaimer

Idealist, creative, and inquisitive

Iron Repurposer

Dependable, resilient, and disciplined

Scheme

Identification and Grouping

Training and Knowledge sharing in each group

Impact measurement and recognition in each subdivision

Inter and Extra Collaboration between each archetypes

Fosters innovation through collaboration across diverse strengths and perspectives

Attracts people by offering personalized identities they can resonate with

Boosts productivity, grouping like-minded individuals who work well together

Community Project Example

Paper Reducer

Create local campaigns to transition schools and offices to paperless systems

Glass Recycler

Partner with local businesses to repurpose glass into art or construction materials.

Community Training Example

Plastic Recycler

Techniques for identifying recyclable plastics, upcycling projects, and reducing single-use plastics.

Iron Repurposer

Methods for recycling metals, repurposing iron waste, and minimizing scrap.
